

REG Program Year: \_\_\_\_\_ Rhode Island Energy Case Number: \_\_\_\_\_

## Renewable Energy Growth Small Scale Participant Customer Disclosure Form Direct Ownership

The purpose of this form is to provide consumers with a uniform and transparent resource to evaluate potential solar transactions under the Renewable Energy Growth (REG) Program. This form is intended to be completed by the solar installer installing the system and submitted with the interconnection application.

| CUSTOMER INFORMATION   |                                     |         |         |
|--|-------------------------------------|---------|---------|
| Customer Name:   |                                     |         |         |
| Site Address:  |                                     |         |         |
| City, State, Zip:  |                                     |         |         |
| Phone:   |                                     |         |         |
| Email:   |                                     |         |         |
| INSTALLER CONTACT INFORMATION  | PRIMARY SERVICE CONTACT INFORMATION |         |         |
| Company:   | Company:                            |         |         |
| Street Address:  | Street Address:                     |         |         |
| City, State, Zip:  | City, State, Zip:                   |         |         |
| Phone:   | Phone:                              |         |         |
| Email:   | Email:                              |         |         |
| CONTRACT, COST, AND ESTIMATED PERFORMANCE INFORMATION  |                                     |         |         |
| System Size (kW DC):   |                                     |         |         |
| Where in the contract is the warranty information located?   |                                     |         |         |
| Are all warranties transferrable? Yes or No  |                                     |         |         |
| Has a shading analysis been completed for the property? Yes or No  |                                     |         |         |
| How much production is expected to be lost due to shading? (%):  |                                     |         |         |
| How many arrays are included in the solar PV system?   |                                     |         |         |
|  | Array 1                             | Array 2 | Array 3 |
| Ordinal Direction of Array   |                                     |         |         |
| Array Production %   |                                     |         |         |
| Estimated Year One Production (kWh):   |                                     |         |         |
| What is the Final Purchase Price for the system before any rebates or other incentives (\$)?   |                                     |         |         |
| FINANCING INFORMATION*   |                                     |         |         |
| Does the above-listed Final Purchase Price include any dealer fees or other finance-related charges that would not be charged to a customer in a similar cash transaction? Yes or No                         |                                     |         |         |
| Amount of dealer fees or other finance-related charges in the Total Project Cost (\$):   |                                     |         |         |
| OTHER INFORMATION  |                                     |         |         |
| Is the customer aware of Rhode Island Energy's Tax Policy Document and the reason you must provide a W-9 to  |                                     |         |         |
| Did the installer and the customer discuss the condition of the roof and the potential cost for removing and reinstalling the array in the event that repair or replacement of the roof is needed? Yes or No |                                     |         |         |
| Did the installer and the customer discuss all available solar state and federal incentives? Yes or No   |                                     |         |         |
| Describe any system performance or electricity production guarantees:  |                                     |         |         |

| KEY RESPONSIBILITIES CHECKLIST                       | PRIMARY INSTALLER | SYSTEM OWNER |
|--|-------------------|--------------|
| System Operations and Maintenance                    |                   |              |
| Submission of Interconnection Application to Utility |                   |              |
| Securing the Required Solar Permit                   |                   |              |
| Obtaining Engineering Approvals                      |                   |              |
| Scheduling Inspections                               |                   |              |
| Participation in Inspections                         |                   |              |
| OWNERSHIP OF INCENTIVES                              | PRIMARY INSTALLER | SYSTEM OWNER |
| Owner of REG Incentive Payments                      |                   | X            |
| Owner of Federal Investment Tax Credit               |                   | X            |

\* If your System is financed, carefully read any agreement and/or disclosure forms provided by your lender. Your installer may not be aware of the terms of your financing agreement, which may include fees not listed above. This disclosure does not contain the terms of your financing agreement. If you have any questions about your financing arrangement, contact your finance provider before signing a contract.

\*\*The Rhode Island Contractors' Registration and Licensing Board ("CRLB") is the agency charged with regulating contractors in the State of Rhode and is governed by Rhode Island General Laws § 5-65-1 et seq. The CRLB claim process is an administrative alternative for property owners who are unsatisfied with the work of a contractor and who wish to resolve the dispute outside of court. To learn more about the law visit <http://www.crb.ri.gov/>

**NOTE 1:** A Renewable Energy Certificate (REC) represents the Environmental Attributes associated with one megawatt-hour of renewable energy as defined by Rhode Island law. RECs generated by the facilities participating in the REG Program are transferred to the utility company in exchange for the incentive payments made to the facility owner under the program. Therefore, while you cannot claim that you are using the solar power generated by the facility, your purchase of a solar array does support solar development in Rhode Island and increase the amount of solar energy consumed by all electric ratepayers in the State.

**NOTE 2:** All solar PV projects installed under the REG program may be subject to a mandatory third-party inspection.

**NOTE 3:** Solar installation companies that do not provide accurate information on disclosure forms may be subject to penalties including but not limited to, being named in the annual Office of Energy Resource's Quality Assurance Report.

I, \_\_\_\_\_, hereby confirm that I have received and understand the above information. I further confirm that I have had a chance to ask questions of my provider and have received sufficient answers, if applicable.
